Yuanwen Tian

yuanwentian@hust.edu.cn

Current Position

Center for Vision, Cognition, Learning and Autonomy (VCLA), UCLA *Jul 2018 – present*
Undergraduate Research Assistant

Education

Huazhong University of Science and Technology (HUST) *Expected: Jun 2019*
B.E., Electrical Engineering and Automation
Overall Score: **92.8/100** Class Rank: **1/28**

University of California, Los Angeles (UCLA) *Jul 2018 – Sept 2018*
UCLA-CSST Research Program
Course Grade: **A+**

Tests

- GRE General Test **331** (V 161 Q 170 AW 4) *Jul 2017*
- TOFEL iBT **106** (R 30 L 28 S 22 W 26) *Oct 2018*
- TOFEL iBT **105** (R 30 L 30 S 20 W 25) *Mar 2018*

Jiang, "OPPOCO: From Ad Hoc Cloudlet-Assisted Edge Computation to Opportunistic Computation Offloading", *12th EAI International Conference on Testbeds and Research Infrastructures for the Development of Networks & Communities* (TRIDENTCOM 2017), 2017. DOI: 10.4108/eai.2892017.2273365.

Presentation

Yuanwen Tian, Z. Xu, H. Wang, T. Gao, "Model-Based Trajectory Planning through Generic Nonlinear Programming", *UCLA – CSST Research Program Meeting*, **Poster presentation**, Sept., 2018.

Research Experience

Center for Vision, Cognition, Learning and Autonomy (VCLA), UCLA *Jul 2018 – present*
Research Assistant
Advisor: Professor Tao Gao

Project 1: Model-Based trajectory planning through generic nonlinear programming.

- Participated in building trajectory optimization library using CMake and C++
- Implemented robotic motion planning with constraints using MuJoCo (Multi-Joint dynamics with Contact) physics engine and IPOPT (Interior Point OPTimizer) solver
- Evaluated our trajectory library on two task scenarios (random-target and collision-free) and three models (inverted pendulum, inverted double pendulum and cart pole)

Project 2: Physical-Mind joint inference system.

- Modeled chasing scenario using MuJoCo physics engine to test human perception
- Implemented various physical attributes on MuJoCo (such as weight, force, tendon type, etc.)
- Rendered trajectories in both tendon-visible and tendon-invisible ways as comparison

Embedded and Pervasive Computing Lab (EPIC), HUST *Nov 2016 – present*
China International Joint Research Center of Green Communications and Networking
Research Assistant
Advisor: Professor Min Chen

Project 1: Emotion communication and affective computing, supported by the National Natural Science Foundation of China (Grant No. 61572220).

- Implemented experiments on ECG based biological recognition parallelization
- Participated in designing AIWAC Robot (Affective Interaction through Wide-Learning And Cognitive Computing) based on emotion communication

Project 2: Data driven computing and caching in 5G networks, supported by the National Key R&D Program of China under the grants 2016YFE0119000.

- Evaluated edge cognitive computing platform for Internet of Things applications, such as autonomous driving.
- Leveraged joint optimization for IoT applications, including Emotion Detection, UAVs.

Awards and Scholarship

International-level

- Best Student Paper Award for 12th EAI International Conference on Testbeds and Research Infrastructures for the Development of Networks & Communities (TRIDENTCOM 2017) *Sept 2017*

National-level

- China National Scholarship, awarded by Ministry of Education of China & Ministry of Finance of China (The highest level of academic scholarship in my country) *Oct 2016*

University-level

- Technology Innovation Award, Huazhong University of Science and Technology *Sept 2018*
- Academic Excellent Scholarship, Huazhong University of Science and Technology *Sept 2018*
- UCLA-CSST Scholarship (Cross-disciplinary Scholars in Science and Technology), University of California, Los Angeles *Jul 2018*
- Si Yuan EE Scholarship, Huazhong University of Science and Technology *Apr 2018*
- Merit-Student Scholarship, Huazhong University of Science and Technology *Oct 2017*
- Outstanding Undergraduates (top 1%), Huazhong University of Science and Technology *Dec 2016*
- Merit-Student Scholarship, Huazhong University of Science and Technology *Oct 2016*
- Si Yuan EE Scholarship, Huazhong University of Science and Technology *Apr 2016*
